

Living in Singapore for 14 days was very memorable. I was very happy because I was lucky enough to join this exchange program. I am not afraid of communicative barrier, since someone told me that my prospective buddy is a cheerful and lively girl.

On the first day, I saw all the Singaporean students and teachers welcome us very enthusiastically. We visited the school after the opening ceremony. In the opening ceremony, I found Singaporean students' singing very pleasurable. What an eye-opener!

Shortly after 3 to 4 days in Singapore, I got along very well with the local students. And I found that their English level was very high! After a week, I noticed that the teachers wore flamboyant costumes whenever they had school days.

The local snacks in Singapore have their unique flavour, such as Pandan Cake, Tarik, etc, can be seen almost everywhere. The most memorable experience for me during this trip was visiting Universal Studios Singapore. There were many adventures, each of which was very exciting, fun and exhilarating. Before leaving for Singapore, we had prepared a surprise for the parents of these Singaporean. It was a letter, with sincere messages and gratitude, ready to be given to them at the end of this exchange program.

All the students, the teachers and the parents attended the farewell ceremony. Some parents were moved to tears. Shortly after taking a reunion photo, we headed for the airport with tears in our eyes.
