

This Hong Kong –Singapore exchange program is such a meaningful experience for me. During the past 2 weeks in Singapore, we had done a lot of things; it's just great to be one of the members in this program.

I was really excited on the first day when we arrived. I met my buddy in Balestier Hill Secondary School where we started our friendship. After this tiring flight starting from Hong Kong, my host family took me to a shopping mall where we had dinner. I fell in love with Singaporean food. The next day, we had an opening ceremony at Bukit Batok Secondary School. After that, we went to the Science Centre. Everything was very well organized inside; I enjoyed the magic show particularly prepared for us too.

We started our tour around the school campus on 12th, July. I was shocked when I went inside the school. Firstly, the students' uniforms were neat and tidy. Secondly, I was surprised by the size of their school. It was big enough to make me get disorientated. Thirdly, they didn't have air-conditioners in their classrooms. Singapore is a country where there are no other seasons but summer, but the students can still withstand such a hot weather. The Singaporean students managed to do so but Hong Kong students could not because Singapore is much more environmental friendly than Hong Kong is.

On Friday, we went to the Night Safari. It was fabulous! Singapore is the only country where there is such a special Night Safari in which I saw animals that I could only see in books or on television. I am so proud of Singapore. If I get a chance to go to Singapore again, I will definitely take my family there, and maybe we could walk near the animals too.

I went to the Universal Studios Singapore on Sunday. I just loved it. Although Universal Studio Singapore wasn't big, I really enjoyed everything. I took many photos there; I took the roller coaster for many times. Unluckily, we didn't have enough time to walk around Santosa. On the way to Universal Studios Singapore, the views were very beautiful.

How time flew! The 2 weeks were about to come to an end. We had a closing ceremony on the 22nd. I enjoyed the stage performance given by Ang Mo Kio Secondary School, and Hong Kong students did their best in their singing performance. We had dinner there and left really late.

On my last day in Singapore, my buddy took me to Central, Bugis, and Ion. I went shopping with my buddy and some other friends from Singapore and Hong Kong. We had been walking for the whole day, and everyone of us was happy. The next day, we went back to Hong Kong, but our friendship doesn't end here. It goes on and on.

One of our good friends who often hanged out with us in Singapore came to Bukit Batok to see us off. The teacher said our buddies and their parents had better not accompany us to the airport, because it might cause them such a nuisance. However, this good friend still came to the airport, so did my buddy and her mom. My buddy bought me a cake and some other food that I loved.

I am looking forward to seeing all our Singaporean friends! And I hope they will like Hong Kong.
