

My Vision School

My Vision School is a large 'family'. Students and teachers show love and care to each other. Everyone is happy to stay in the school. Students treat each other as younger or elder brothers or sisters. They are friendly, trustworthy, polite and respectful to teachers. Teachers are firm but kind. They are just like guardians of the students to love and care about their children. Whenever students have problems they will seek teachers' advice and teachers will guide them patiently. All students make every effort to improve themselves and have clear goals of their future. They work diligently and seriously in order to achieve their goals.

Students are eager to learn. In the classroom they are attentive and cooperative. They show interest in their studies and participate in learning activities constructively and positively. During the recess, lunchtime and after school, students play happily and enjoy their school life. At home they finish all the homework and assignments which will be handed in to the teachers on time. In the leisure time they will read extensively to increase their knowledge. They will learn by themselves and become life-long learners.

In the school students are provided with a great variety of extra-curricular activities and sports programmes. They can select those they like and participate in them actively. They also have concern about the community and are willing to serve people by joining volunteer services. Through participating in these activities, students can develop their leadership and generic skills, as well as building up their social awareness and responsibility. They will become all-round students with good academic standards. The graduates are the leaders of tomorrow and can face the challenges of an ever-changing world.

Learning and teaching is student-oriented. Teachers adopt a variety of teaching and learning strategies to meet the needs of students and to cater for their diversity. Teachers are facilitators helping and supporting students to be active learners. Teachers enjoy their teaching and find satisfaction from their work since students enjoy their learning and achieve good results in every aspect. Students appreciate teachers' effort and show their thankfulness to teachers.

Last but not the least, there is strong support and cooperation from the parents. Everyone is proud of the school...
