## **TROPICAL CYCLONES, HEAVY PERSISTENT RAIN AND THUNDERSTORMS**

Please note the following actions and arrangements in the event of tropical cyclones, heavy persistent rain and thunderstorms :

- a) Students should listen to the radio and television stations before 6:00 a.m. to see if there is an announcement of closure of schools by the Education Bureau. If such an announcement is made, students should stay home. However, if the announcement is made after 6:00 a.m. and students are on their way to school, they will be taken care of by teachers on duty in the school on their arrival until they are picked up by their parents/guardians or until the situation warrants a safe journey home.
- b) When the Education Bureau makes a public announcement of the re-opening of schools, parents/guardians should use their discretion in sending their children back to school. If it seems to them that local weather, road, slope, traffic or transport conditions have not by that time returned to normal, they should let their children stay home. A letter from the parent submitted to the school afterwards would be accepted as a valid leave for absence under such situations.
- c) When the school is in session and the Education Bureau makes a public announcement of immediate closure of schools due to rapidly deteriorating weather, the school will ensure that students are taken care of in a safe place or to alert parents to accompany them home.
- d) In exceptional circumstances, the Education Bureau may announce the closure of schools in one or more districts. Students living in such districts need not go to school even if their schools are located elsewhere. Parents and students please note the name of the district in which they live. Please also note that our school is located in the TAI KOK TSUI district.
- e) For **internal examinations, examination sessions affected by closure of schools due to tropical cyclones, heavy persistent rain or thunderstorms will be postponed. New arrangement will be posted on the school webpage and school intranet on that day. The examination dates for the affected subjects will also be announced when school resumes.** For other subjects, the examination timetable will remain unchanged and all subjects will be examined on the scheduled dates. School may make alternative arrangements regarding internal tests or examinations for those students who cannot return to school or arrive late because of poor weather, road, slope, traffic or transport conditions. However, for public examinations, students have to listen to radio or television stations for announcements made by the relevant examination authorities.
- f) In general, school will be closed when typhoon signal No. 8 or above is hoisted or when the 'BLACK' or 'RED' warning of the rainstorm warning system is issued. For 'AMBER' warning, the school will operate as usual unless advised otherwise. But parents can decide at their discretion whether to send their children to school considering

the weather and road conditions of their living areas.
