## A Film Review – Matilda

There is this girl born with special powers. Her name is Matilda. She is bright, independent and very knowledgeable.

One day, Matilda decided to go to public library. Matilda really likes reading books. She spends most of her time reading books in the library. She reads, reads and reads until she reaches at the age of six. Finally Matilda's parents decided to send her to school. On her first day, she sees the most evil person in her school who is the school's principal. She is called Ms. Trunchbull. Afterwards, she meets her class teacher who teaches her Mathematics in her class. Her name is Miss Honey. Miss Honey is a very kind teacher who loves teaching children. Miss Honey first introduces Matilda who is a new student in their class. After that, Miss Honey starts revising what they have learned so far. She started with some easy multiplications until her questions gets harder and harder. Only Matilda is able to answer the difficult questions. Miss Honey is astonished by Matilda. Awesome movie is it!?

I don't really want to spoil much more of the movie. I suggest this movie to everyone. Everyone will enjoy it!
