

## **The School's 50<sup>th</sup> Anniversary Celebrations**

*Suggestions (Please state your suggestion, giving details of the event.)*

For our school's 50 anniversary celebration, I would like the school to organize a charity walk to raise funds for the local "Our Dreams" organization. It is an organization that helps young children in Hong Kong who have terminal cancer to spend their last days to pursue their dreams.

These children, unlike other children, do not have the chance to do what they wish to. All of them have different dreams and aspirations which I believe are all special and unique in their own ways. "Our Dreams" aims to let these children fulfill their last wishes and not leave this world sadly and in pain in a cold, empty hospital ward.

For this meaningful event, all parents, teachers, and students can participate.

The event itself is a valuable experience as everyone can walk hand-in-hand to help the suffering children in our society. We can also fulfill our role as Hong Kong citizens by participating in this good cause to help our community.

Organizing this charity walk can give our school good publicity and show that our school cares about our community. This can lead to solving the problem of fewer and fewer students applying to our school each year.

Next, I believe that if we were to raise awareness for children with cancer who don't even have the opportunity to go to school, a lot of students from our school who don't care about learning and take their school life for granted will start showing more care and make more effort with their studies, and appreciate what they have.

Lastly, walking is beneficial to our health. Through this event, lots of participants can take their chance to exercise and start thinking about implementing healthier life choices by exercising every day.

*Planning (What steps are needed?)*

If this event suggestion is taken, we should first contact the organization through their email [ourdreams@gmail.com](mailto:ourdreams@gmail.com) or their phone number (666666) to arrange a meeting to discuss the charity walk and plan the details, such as the place and time, with them.

Other than that, I believe no further steps are needed. Hope that this event will be chosen for our school's 50<sup>th</sup> anniversary celebration.
