

" An Awesome Aquatic Adventure! "

By Dabon Japhia Joyreal Yu (1A)

Last week on my birthday, my cousin and I, alongside our family went to Ocean lark to celebrate my thirteenth birthday as we are all incredibly interested in sea life and have been wanting to go there for a while, we went there early, way too early! at six in the morning- we were a bit shocked and embarrassed of our mistake, but that won't ruin a day full of fun ahead us!

Later, when the park finally opened, we were all dazzled on the incredible buildings and structures, my cousin and I immediately started taking photos of our surroundings, then were stunned by the great Grand Aquarium! My family rushed to get to the entrance, I suppose they were very excited, as my cousin and I just laughed.

After a long time at the Grand Aquarium taking pictures and notes of everything, we all were very hungry! As we looked around for a food stall or restaurant, we were drawn in by the smell of caramel popcorn and some other dishes like grilled squid and fish balls, which all tasted amazing, but not as amazing as the cable cars and roller coasters! They were so excited to be on! As we were heading to Shark Mystique, I saw a wild boar walking around the path, thankfully it retreated back to the mountains after, but my cousin still has some unflattering pictures of my mother when she screamed.

After a long day of fun, pictures, memories and sea life, I had come to a conclusion. This was the best birthday ever! I'm glad to spend my special day with my family, my

cousin- and her camera! I hope to come back to Ocean park and have another awesome aquatic adventure soon!
