A Wonderful Trip

It was a beautiful sunny day. My cousins and I planned to go on a hunting trip. My cousins were Jake, Nick Camile, Josh and Jiawei. Jake went to pack some canned food and drinks because we were going for two days. The place we were going was called 'Baboon Sanctuary'.

It took us three hours to get there so it had already got a little late when we arrived. Josh was the leader of the troop because he had been there before and knew the place very well. Nick was the one who had to cut our way into the forest because he was the strongest. We had walked for two hours and finally found a spot where we could stay. Then we put our stuff down and Jiawei started to make the campfire. It was time for what I could do best and make the traps to catch our food. I made fifteen traps all over the campsite so I was sure that I could catch something to eat. After making the traps, we ate some canned food we had and went to sleep.

In the next morning, I got up but I found my cousins were all gone, I was a little scared but then I went looking for them. I went by the riverside and saw all of them there fishing and so I joined them. We fished for about four hours and caught only one barracuda. It was one fish but it was big enough for all of us. While they were frying the fish, I went to check on my traps and found out that I have caught a wild pig and a deer. I then hurried to my cousins and told them to help me carry the animals back to our base.

When we got back to the base, I received a call from my mother and she said that it had an emergency that my aunt was having her baby and we had to hurry back home and that was how our trip ended. It is the most amazing trip of my life.
