

Sharly Shrestha 1E (16)

My Life in Hong Kong

My name is Sharly Shrestha. I am thirteen years old. I live in Tin Shui Wai. There are five members in my family. They are my parents, my brother, my sister and me. My sister is a teacher. My brother is studying and working here in Hong Kong.

My hobbies are surfing the Internet, going for outings, trying new things, reading books and knowing more about the different things around us. I enjoy doing something related to my studies.

I have joined the Handicraft Club because I want to learn making new things like candles and bracelets. Handicraft Club is quite a fun club. I have learnt how to make photo frames by myself. Now I can make photo frames so I can do decorations and make them at home.

My school life is very enjoyable because the teachers and the students here are so kind, helpful, friendly and nice. At school, I have met many new friends and teachers. They are all from different places. I know a lot of things about different places and different cultures now. I am looking forward to knowing more and making new friends.

After school, I usually watch TV with my mum and I study and prepare for my lessons and exam. My sister and my brother help me with my work and studies. I ask them for help whenever I do not understand some questions and try to learn from them.

In my weekends, I always go for outings or go running with my friends and family. I go running with my brother and sister in the evening. We go to the park for running, playing basketball and football. Doing some sports can keep us healthy. I go outing with my friends and family to see the nature around Hong Kong. I like to see about sights and nature and I enjoy it very much. I often go to the temple with mum for worship. I also enjoy going there because it is quite peaceful and silent. I truly believe in god and goddess. I enjoy my life in Hong Kong.
